by ISA Coordinators  
Ms. Piali Roy and Mrs. Sushmita Roy*

**CIS**

**Ranked 1st in West Bengal and Kolkata,  
12th in India for exemplary  
contribution to the education field**

# Outstanding Leadership Principal of the Year

Kolkata Centre for Creativity had organised a learning program 'Dasagriva' - making Raavana, the ancient king of Lanka with some selected students from six schools in Kolkata.

Our students Ananya Ghoshal of AS and Srijita Roy of grade 10 had participated in this project and they learned some new techniques in the process.

They took part in the making of the huge figure and also had made their own mask to be used for Raavana.

This project was inspired by traditional techniques of Chau and Shola. The great maestro artisans Madhumangal Malakar (Shola) and Nepal Chandra Sutrakar (Chau) had guided them to create 14 feet Raavana using Shola panels.

Learning is NOT the product of teaching,  
Learning is the product of the **ACTIVITY** of learners...John Holt

## Learning Maths through Fun in Middle School

Grade 8  
**Puzzles on Simple Equation**  
(Tarsia)

Connecting Learning to Real Life –  
Grade 7 *Calculating Discounted Price*  
of SALE items in a Shopping Mall

Middle Section  
Mathematics and
